

The Lark, Nine Elms is WiredScore certified

WiredScore is the world's only internationally recognized digital connectivity rating scheme. The Lark, Nine Elms has been awarded a WiredScore Gold rating for its outstanding digital connectivity!

Your home has a fast and reliable internet connection. It means your landlord cares enough about the people who live here to make sure their building is ready for the technologies of tomorrow.

What does this mean?

Stability

To ensure that Wi-Fi is present throughout your home, your landlord has conducted a thorough analysis that confirms quality coverage reaches the length and breadth of your home.

Speed

Your landlord has provided you with a range of connectivity services and packages, including gigabit or symmetrical internet.

Security

Your landlord has made sure that connecting to your Wi-Fi will always be safe and secure via a protected network.

Setup

Your building is equipped to support high-speed fiber, ensuring download speeds greater than 100 mbps, so you'll never buffer during a movie or freeze on a call again.

Service

On the day you move into your new home, you will be able to connect to the internet with ease and efficiency. And that's a promise.
